Art Unit: 2643

1. The following is an examiner's statement of reasons for allowance: the present invention is a system and method for providing call center services and for message translation using Internet protocol between a first and second party. The independent claims as amended recite the uniquely distinct feature of having full-duplex communication capability over Internet protocol such that the caller can use any Internet ready terminal for communication and allows for a conference call or multi-party phone conversation with the ability to interrupt or interject which was not provided in conventional half-duplex protocol systems. The art of record as supplied by applicants or cited by the examiner, either singularly or in combination, fail to anticipate or render the above limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Wing F. Chan whose telephone number is 571-272-7493. The examiner can normally be reached on Monday to Friday from 9 AM to 6 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Curtis Kuntz can be reached on 571-272-7499. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
